Message

As I think good education is an example of inner change only information and bookish language is not everything, Today in this makeshift surroundings / world education is centralised among both girls and boys together. Today's children are the future of our country. Apart from quiz and result their life is immobile and just as a blank paper so its our responsibility to put even a single word honestly and judgnatically before them.

We always tried hard and hard to provide them book is a knowlede as well behavioral understanding too. So, we always enclese every subject to life so that they could understand property and easily and can show keen interest in learning.

As last I would like to say children are our country's future. The more foundation or footing of children would be strong or stable, the more our country would develop. The optimum or best sourece to promote or make strong their foundation is nothing out education. The education that possess culture and can also make their future ahead.

K. Sagar

Secretary

VISION

To Inspire every child for life through a rounded education of a child's body, mind, heart and spirit to help them grow into well matured and balanced human beings able to recognize their potential as contributing and become a successful member to their family, society, country and the world.

MISSION

To create an environment in which every child feels nourished, nurtured a positive self-image of every child and creates in them an intrinsic love of learning.

ABOUT THE SCHOOL

We heartily welcome you to **Sephali World School** an **English Medium School** based on the **C.B.S.E., New Delhi**, which is run by the **Shyam Lal Singh Memorial Trust**. As a matter of fact, it is temple of learning where true community spirit is fostered along with excellence in **scholastic** as well as **co-scholastic** education of students. It has a tranquil environment which encourages inner peace and creative learning. We also provide **GROSS AND MORTAR DEVELOPMENT** education of body, mind, heart and spirit of every child.

AIM & OBJECTIVES

1. We strictly abide by the rules of.
2. The school aim is to provide the possible educational opportunities, especially to the weaker section of society, enrolling them by encouraging as day scholars at nominal charges.
3. We nurture the student with nature.
4. We are focused on the all round development of a child i.e. physical development, mental development, cognitive development & moral development.
5. Our Institution endeavor to impart the best possible qualitative education to students based on modern technology & technique through well organized and well equipped teaching aids.

ACADEMIC YEAR

The academic year runs from April to March

MEDIUM OF INSTRUCTION

Although the medium of instruction is English, but Indian Languages like Hindi and Sanskrit are equally adopted as a part of subjects with culture.

KEY FEATURES

E-CARE

We provide the E-care facilities for the parents and students through “VAWSUM” app. It is software that connects parents, students, teachers and school management for **control and coordination** through smart mobile application like:

- Instantly updates the children attendance
- Absent record
- Late Record
- Send the study plans and syllabus
- Provide daily home work
- Study materials in the form of tests, video, animation, picture educational web links.
- Update the events schedule as well as
- Feedback of parents towards teachers & school managements

LIBRARY

The library is an integral part of comprehensive and creative learning. The school has a number of values based and qualitative books like English literature, Science text books, Practice books and Assessment books, Dictionaries for different subjects, Encyclopedia, and Moral value based books etc.

COMPUTER LAB

Apart from the computer education the school has also adapted computerized educational method. We provide opportunity to each and every student to learn more about different subjects / topics on computer through various educational software. We provide “Internet” facility too.

3-DIMENSIONAL INTERACTIVE SMART CLASSES

Technology is integrated into our teaching, learning process and our students, retain most of what they see, some of what they hear and every detail of what they

experience. 3-Dimensional Interactive smart classes ensure active participation to learners and mentors.

LABORATORY

The school provides adequate facilities for holding practical classes. We are having different types of practical equipment for fulfillment of the learning by doing approach.

CLOSE-CIRCUIT TELEVISION (CCTV) - SURVILLANCE

Entire school campus including every compartment has been equipped with close circuit television facility to have a vigil over all activities in every corner of the school.
